August 10, 2006 (Boca Raton, FL) --- Multi-Media Productions (USA), Inc. announces that Abeton will be featured on *Health Journal Television*, hosted by General Alexander Haig.

Everyday in the U.S., thousands are injured at home, work, or in their cars. Many file insurance claims to pay for medical bills, recover wages, and receive disability benefits. Complex medical questions can arise, however, making it difficult to quickly resolve claims. Abeton helps simplify this process by offering independent medical evaluations (IME) to insurance organizations and attorneys, which expedites the claim process and provides critical information to enable accurate claim decisions.

Thomas D. Johnson, President of Abeton, says "Providers of Independent Medical Evaluations must adhere to the highest standards of independence and integrity. Abeton has taken that responsibility very seriously by developing a system and methodology that results in some of the finest, most objective reports available to the industry. The company's patent pending Quality Best Practices, coupled with a highly respected panel of physicians, enables Abeton to ensure that the company's provider network consistently delivers medical reports of extraordinary quality."

Coordinating Producer Theresa Pietrzak added, "Abeton is at the forefront of their industry. Their innovative solutions made them a natural to appear on the show."

About Abeton

Abeton provides independent medical evaluation and peer review services to help resolve insurance claims in the workers' compensation, auto liability, and disability industries. Abeton has been providing IME services since 1984.

Contact Abeton for more information at www.abeton.com.
